

2021 ANNUAL LEADERSHIP CONFERENCE

Fate Saghir Senior-Vice President, Head of Sustainable Investing Mackenzie Investments

Fate Saghir leads Sustainable Investing at Mackenzie Investments. Fate is also the Chair of the Sustainability Steering Committee and the Head of Mackenzie's Sustainability Centre of Excellence, dedicated to developing capabilities and enriching technical expertise of environmental, social and governance (ESG) factors in support of corporate strategy, investment management practices and sustainable product offerings. Fate brings thought leadership, education and tools aligned to creating sustainable investments to institutional clients, advisors and investors. Since joining Mackenzie in 2017, Fate led the development and launch of Precision, an intuitive investment analytics technology that assists financial advisors in the research and analysis of Canadian investments. She then established a new function, Market Strategy and Innovation, focused on research, insights and innovation enabling fact based and client centric decision-making at IG Wealth Management and Mackenzie Investments.

Fate has over 14 years' experience in financial services building new sustainable business models through strategic research and insights, her strong client orientation and a focus on generating long-term value for all stakeholders.

She sits on the Advisory Boards for Timea's Cause, an organization dedicated to building awareness in human trafficking and the Women's Collection, an organization focused on enabling financial literacy for women. In 2021, she joined the Responsible Investment Association's Leadership Council. Fate has a Bachelor of Commerce from the University of Windsor and is a Chartered Professional Accountant (CPA, CMA).
