

FUNDING THE FUTURE

The Economic Impact of Canada's Investment Funds Industry

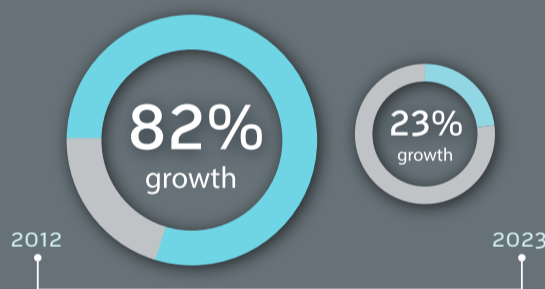

The investment funds industry has become increasingly important as more Canadians rely on its products and services to generate savings.

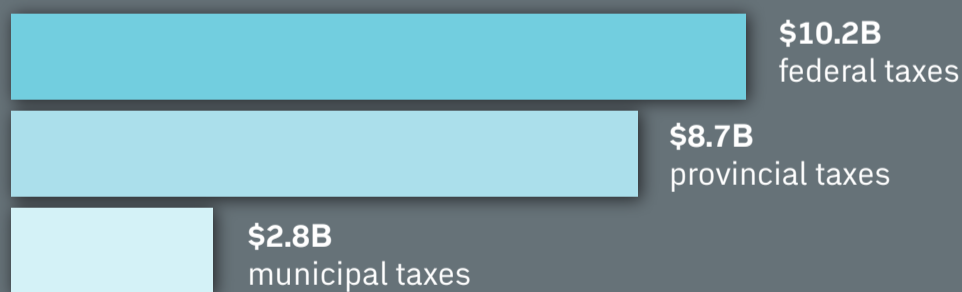

Canada's investment funds industry contributes significantly to job creation, government revenues, and overall GDP – a key indicator of economic health.

The industry's GDP grew by **82 per cent** between 2012 and 2023, compared with **23 per cent** for the Canadian economy overall.
